IGI 1343

Product Information Sheet

Product Description	<i>IGI 1343</i> is a fully refined wax suitable for pillar and other molded candles as well as “cut and carve” candles
Typical Properties	Melt Point (ASTM D87): 138°F (58.9°C) Needle Penetration (ASTM D1321 @77°F): 13 dmm Color (ASTM D156): +30 Appearance (solid): translucent
Benefits	<ul style="list-style-type: none">• Controlled batch consistency• Good mold release• Good burn characteristic• Not as brittle as a typical paraffin wax, making it suitable for “cut and carve” applications• Even shrinkage, without cracking or spotting
Guidelines	<ul style="list-style-type: none">• Use this product as supplied or as a base wax in combination with additives for pillar and molded candle applications.• Use fragrances specifically designed for candles. Typically fragrance retention is 3% by weight. Higher fragrance loads may require the use of additives.
Packaging, Product Form, and Storage Conditions	<i>IGI 1343</i> is available in 60 lb (27.2 kg) cartons or in bulk liquid (tank truck or railcar). Solid product should be stored at ambient room temperature in a clean, dry environment with the original packaging. Please contact IGI for additional storage details or alternate packaging forms.
